What's new in Multi Operating Authority (MOA) version 4.1.x?

MOA Hierarchy

Multi Operating Authority – main menu

A new MOA top menu appears containing the list of all created MOAs and a direct link to carrier mode.

Multi Operating Authority

Once you click on the menu, it will show the list with each MOA and with the carrier mode. If you select one and click the Save button or just double click on the selected item, then it will change the view to MOA mode or Carrier mode depending on what is selected.

Manage

Once a MOA is selected, the Manage menu will change, showing the selected MOA on the main screen, plus it will always stay selected on the toolbar as information for the user to know which MOA is selected.

Carriers

When the user is working in MOA mode and clicks the Carriers button, a list will be displayed with all the carriers that belong to that MOA.

Carriers + New

Q Search

| Name | DOT/NSC Number | Address | Country | Time Zone | Actions |
|----------------|----------------|--|---------|--------------------------|---------|
| ROBERT W BADEY | 85443 | 252 W NEDRO AVE, PHILADELPHIA, PA, 19120 | USA | Eastern Time (GMT-05:00) | |
| R&G TRUCKING | 652232 | 4135 EXCHANGE RD, SUTTON, WV, 26601 | USA | Eastern Time (GMT-05:00) | |
| Canada Carrier | 144SAA | Canada | Canada | Eastern Time (GMT-05:00) | |
| Mexico Carrier | 47ASAA | Mexico | Mexico | Eastern Time (GMT-05:00) | |

The user can modify the information of the carriers and if the user authenticated in the system is a Master Reseller, he will be able to create new carriers in that MOA.

Drivers

When the user is working in MOA mode and clicks the Drivers button, a list will be displayed with all the drivers that belong to that MOA.

Drivers + New

Q Search

| Name | Username | Home Base | License Number | Carrier | Active | Actions |
|--------------------|--------------|-------------------------|----------------|-----------------------------|-------------------------------------|---------|
| 3333, driver 3 | newdriver | ttttt | WQQWWQ | RICHARD WEISS | <input checked="" type="checkbox"/> | |
| DRIVER, moa driver | moedriver1 | MOA Home base 2 | SDFSDFSDSDFSD | RICHARD WEISS | <input checked="" type="checkbox"/> | |
| Develop, Driver | drivermoadev | MOA Home base 5 updated | 12364 | STITT BARN PRESERVATION LLC | <input checked="" type="checkbox"/> | |
| Driver 1, Moa | drivermoa1 | new | FDGDFGDFGDF | STITT BARN PRESERVATION LLC | <input checked="" type="checkbox"/> | |
| carrier, test | testcarrier | MOA Home base 5 updated | XZXZXZ | NOBLEBEAR INC | <input checked="" type="checkbox"/> | |
| driver, driver | driverdriver | MOA Home base 5 updated | 12121212 | STITT BARN PRESERVATION LLC | <input checked="" type="checkbox"/> | |
| driver, test | testdriver | new | WSWSWS | B-N-B TRUCKING SERVICES | <input checked="" type="checkbox"/> | |
| driver, test | rrrr | MOA Home base 2 | FGFG | RICHARD WEISS | <input checked="" type="checkbox"/> | |

From the MOA mode, when a driver is created or edited, the carrier to which it will belong can be selected. With this it will be possible to change the carrier driver every time the user requires it.

Home Base

When the user is working in MOA mode and clicks the Home Base button, a list will be displayed with all the home bases that belong to that MOA.

Home Bases [+ New](#)

| Name | Address | Latitude | Longitude | Time Zone | Main Office | Actions |
|----------|------------------------------|----------|-----------|--------------------------|-------------------------------------|---------|
| Moa HB | Texas, USA | 31.9686 | -99.9018 | Eastern Time (GMT-05:00) | <input checked="" type="checkbox"/> | |
| moa hb 2 | Los Angeles, California, USA | 34.0522 | -118.2437 | Eastern Time (GMT-05:00) | <input type="checkbox"/> | |

Everything in the home base will work as before, the only difference is that the home bases and drivers of that selected MOA will be displayed.

Assets

When the user is working in MOA mode and clicks the Assets button, a list will be displayed with all the assets that belong to that MOA.

Assets + New

| Type | Number | VIN | Plate | Registration State | Home Base | Active | Actions |
|---------|-----------|--------------------|-----------|--------------------|-------------------|-------------------------------------|---------|
| Tractor | 211212 | ASDASDASDASDASDAS | DASDASDFG | AZ | Tampa Home base 5 | <input checked="" type="checkbox"/> | |
| Tractor | SADSD | QWEDSACCWCWECWECW | 4444 | WI | Tampa Home base 5 | <input checked="" type="checkbox"/> | |
| Tractor | ASDASD | QWE34243423423423 | SDASD | AR | Tampa Home base 5 | <input checked="" type="checkbox"/> | |
| Tractor | FSDFSDF | DSFSDFS4WFSSGRGSG | | AL | MOA Home base 2 | <input checked="" type="checkbox"/> | |
| Tractor | SDADASDSA | 31231231231231232 | SADD | AK | Tampa Home base 5 | <input checked="" type="checkbox"/> | |
| Tractor | 453215 | WERFSDFRGRDBHEHEHE | EHEHH | AR | Cali Home | <input checked="" type="checkbox"/> | |
| Trailer | 44444 | SA | | AL | Tampa Home base 5 | <input checked="" type="checkbox"/> | |
| Trailer | 595959 | | | FL | Cali Home | <input checked="" type="checkbox"/> | |

Everything in assets will work as before, only the assets of the selected MOA are displayed.

Notifications

When the user is working in MOA mode and clicks the Notifications button, a list will be displayed with all the notifications that belong to that MOA.

Notifications + New

| Name | Type | Emails | Actions |
|-------------------|-----------------------------|--|---------|
| Driving no engine | Driving without engine data | user1@gmail.com, user2@gmail.com | |
| Malfunction | ELD Malfunction | user1@gmail.com,user2@gmail.com,user2@gmail.com,user2... | |

When a notification is created or edited, the home base to which it belongs is no longer selected. If the user is working in MOA mode, the MOA selected in the notification form to add or edit will be assigned by default.

Administration Menu

A new item was added to the administration menu, where the reseller can manage the MOAs (list, create, update or delete).

When a MOA is selected, the administration Roles menu item will be hidden, since the roles are not associated with any MOA.

MOA

Clicking on the MOA menu item will display a list with all the MOAs in the system. Here you can manage all MOAs (create, update or delete).

A MOA cannot be removed if it has carriers assigned to it or is associated with a user. If you try to remove it, an error message will be displayed specifying the error.

✘ The MOA cannot be deleted because it has operators assigned to it or is associated with a user. ✘

Users

With the creation of the MOA, a new type of carrier user appears, which is the MOA User. This user has permissions to see the entire web, with the exception that he cannot create users or roles.

Create or Update MOA Users

When creating MOA users, you must select the MOA to which it belongs, and this will give the created user access to the carriers of that MOA.

Add User ×

Username * ⓘ

Email * ⓘ

Password * ⓘ

Confirmation * ⓘ

Multi Operating Authority * ⓘ

To create a MOA type user, the user must be working in MOA mode, otherwise it will not be possible to create new MOA users, only edit the existing ones.

The MOA type user to be edited cannot change the selected MOA, so when that user edits the selected MOA option will appear disabled.

Note

In general, HOS will behave in the same way as we already know, the only noticeable difference is that if the user is working in MOA mode, the data of that selected MOA will be displayed.
