Changes release 247:

Item	Change	B/I/X	Description
4.4.x -1		I	<p>Odometer Jump Report.</p> <p>We have added to the portal a new feature that allows Carriers to run a report and get a list of events when the odometer is jumping. By default, the "Include Missing Values" option is unchecked. Once that option is selected, the scenario with zero Odometer value will be added to the report.</p> <p>See the following example:</p>

4.4.x-2		X	<p>Updating the app to version 249.</p> <p>All our resellers should start updating their current apps to version 249 as soon as possible. Google Android 13 OS has introduced new changes on the application's permissions and enforcing new restrictions on the apps. We have been investigating and adding those changes to our version 249. So, we encourage to ours resellers to look for the way to update all their Android app on the field to version 249 to avoid issues with their service.</p>
